Learn with the experts:
Deep Energy Retrofits

Free webinar series—Register now

Planning for your projects just got easier with this free webinar series from the Enbridge Gas Savings by Design program and Sustainable Buildings Canada.

Join industry experts and your peers on **Sept. 9, 1 - 2 p.m. EST** to learn how to make your projects more energy efficient, resilient and sustainable.

Module 2: Deep Energy Retrofits:
Questions we'll answer

- How is a Deep Energy Retrofit different than a typical renovation?
- Does Part 12 of the Building Code apply to retrofits?
- Can a retrofit project meet or surpass Ontario Building Code requirements for new construction?
- How to protect occupant health during retrofit projects?
